THRIVE

TRAINING, KNOWLEDGE MANAGEMENT & COLLABORATION CENTER

Boost Employee Engagement, Productivity and Retention.

Support your employees' career path with **Thrive: a proven Training, Knowledge Management and Collaboration** platform that bridges traditional LMS with untapped company knowledge.

Thrive intuitively encapsulates the three pillars of a successful workforce:

- **Training:** Unites and enhances your existing learning management system with external sources
- **Knowledge Management:** Serves as an intelligent repository for company best practices and taps into the expertise of tenured employees
- **Collaboration:** Opens lines of communication within and between departments and role levels

266%

Thrive has improved engineering content delivery and consumption resulting in a **266%** increase in number of employees trained.

- Adam Shepherd
Program Director, Northrop Grumman

Speed up onboarding. Support the needs of your team and their roles. Ensure employees feel valued and empowered.

Simplifies Onboarding

- Permission-based access allows managers to create and assign relevant content from internal and external sources
- Provides a starting point for new hires and allows for independent training

Useful Throughout Tenure

- Able to scale and evolve as company needs change
- Provides employees with information critical to their role, career path, and other roles they may be interested in pursuing

Preserves Company Knowledge

- Searchable knowledge base of department and company best practices
- Closes the generational gap between new hires and subject matter experts

Opens Lines Of Communication

- Encourages collaboration across different role levels and departments
- Dashboards provide managers and individuals with a snapshot of training progress
